

## **INNOPAD WELCOMES HIGHLY ACCOMPLISHED SENIOR EXECUTIVE STEPHEN J. WIETRECKI AS CHIEF FINANCIAL OFFICER**

*Appointment to Strengthen Corporate Capabilities As Company Expands Infrastructure to Meet Growth Objectives*

Peabody, MA – July 6, 2010 – innoPad, Inc., a leader in CMP pad technology, today announced the appointment of Stephen J. Wietrecki as the company’s Chief Financial Officer. Mr. Wietrecki is a highly accomplished senior executive experienced in managing high growth start-ups as well as multi-national, public companies, and brings close to twenty years of corporate finance, mergers and acquisition, and organizational development experience.

“We are delighted to welcome Stephen to innoPad. With his appointment, we are in an even stronger position to deliver on our objective of becoming a leader in the CMP pad market,” said John Aldeborgh, Chief Executive Officer of innoPad. “Stephen not only has a proven track record of raising funds, managing complex capital structures, and growing technology companies, but he also has a depth of financial and operational experience that will be invaluable in helping innoPad meet its growth targets.”

“I am excited to join innoPad at this very important juncture in its corporate evolution,” stated Mr. Wietrecki. “innoPad has made significant progress in its technical and commercial development, and is emerging as a strong competitor in the CMP pad market. My primary focus over the coming months is to ensure the company has the resources required to expand its customer support and manufacturing infrastructure in order to meet its anticipated growth. I am looking forward to working closely with John and the innoPad team to help innoPad achieve its full potential as a leading CMP pad supplier.”

Prior to his appointment, Mr. Wietrecki was the Chief Financial Officer and Vice President of Operations at My Perfect Gig, Inc., a software-as-a-service (SaaS) based collaborative candidate fulfillment service. At My Perfect Gig, Mr. Wietrecki designed and built an integrated measurement system that allowed the leadership team to more clearly understand the core operating conditions of the business and more effectively manage to business objectives. He also led the company’s successful closing of its Series B financing.

Before My Perfect Gig, Mr. Wietrecki was the Chief Financial Officer at n2N Commerce, Inc., a venture funded, SaaS based e-commerce platform for high-end retailers. At n2N Commerce, Mr. Wietrecki negotiated and closed several large-scale transactions, including long-term commercial agreements and strategic technology license agreements. He also served the role of acting Chief Operating Officer and led the development of the company’s infrastructure.

Prior to n2N Commerce, Mr. Wietrecki was the Chief Financial Officer at iPhrase Technologies, Inc., a venture funded enterprise software company. At iPhrase Technologies, Mr. Wietrecki led the corporate development process, raising several equity rounds, acquiring Banter Systems, Inc. and growing the business from one customer to over fifty of the Fortune 500 before selling the company to IBM in 2005.

Before iPhrase Technologies, Mr. Wietrecki was the Chief Financial Officer at ON Technology, Inc. a NASDAQ listed software company acquired by Symantec Corporation in 2003. At ON Technology, Mr. Wietrecki led the re-engineering of the company into an enterprise solutions provider, grew revenue by 50%, and increased the company’s market capitalization from \$25M to over \$175M during his tenure.

Mr. Wietrecki received his Bachelor of Science degree from Bryant University and his Masters in Business Administration from Boston University. He previously has served on the Board of Meeting Maker Holdings, a venture-backed enterprise software company.

**innoPad, Inc.** develops and markets polishing pads used in chemical mechanical planarization (CMP), a critical process in semiconductor manufacturing. innoPad’s Micro-channel™ technology platform represents a new approach to pad design, providing unprecedented levels of design flexibility and control.
